LOW-INCOME WEATHERIZATION  
WX

**Weatherization Program**

**APPLICATION:**

The Low-Income Weatherization Program (Program) is designed to provide energy education and weatherization assistance for lower income customers. This Program is intended to assist customers through conservation, education and weatherization in reducing their use of energy and to reduce the level of bad debts experienced by The Empire District Electric Company (Company). The Company's participation in such financial incentives is limited to the funds allocated for that purpose.

**ADMINISTRATION:**

The program will be administered by the Community Action Agencies, also known in this tariff as Social Agencies, serving the Company's residential electric customers. The program will follow the guidelines of the Oklahoma Department of Commerce Low-Income Weatherization Program.

**TERMS & CONDITIONS:**

1. The program will offer grants for weatherization services to eligible customers. The program will be primarily directed to lower income customers.
2. The total amount of grants offered to a customer will be determined by the agreement between the Company and the Social Agencies. These funds will focus on building envelope weatherization, air sealing, refrigerator replacement with an Energy Star<sup>®</sup> rated refrigerator, and Energy Star<sup>®</sup> rated compact fluorescent lights and lighting fixtures that reduce energy usage.
3. Program funds made available to the Social Agencies cannot be used for administrative costs except those incurred by the Social Agencies that are directly related to qualifying and assisting customers under this program. The amount of reimbursable administrative costs per participating household shall not exceed 15% of the total expenditures for each participating household.
4. This Program will continue for three (3) years from the effective date of this tariff, unless otherwise ordered by the Commission.

**EVALUATION:**

Impacts will be based on per ton Deemed Savings for weather zone 9. Installed measures will be collected for all participants and used to estimate impacts. Surveys will be conducted for all participants to measure customer satisfaction with participation in the program.

**PROGRAM FUNDING:**

To the extent that the annual funds contributed exceed the total cost expended on the Program, the amount of the excess shall be "rolled over" to be utilized for the Weatherization Program in the succeeding year within the three-year program period. Annual funds available for this Program are as follows:

2010	\$20,000
2011	\$20,000
2012	\$20,000
