## Customer Responsibility Overhead Electric

We diligently maintain our overhead electric infrastructure to help ensure safe and reliable service. It is important to remember, however, that as a customer, you or the property owner are responsible for the maintenance of customer-owned infrastructure. Review the information below to learn more.

### Liberty:

Responsible for the **service wire** to the **point of delivery**  
Repairing or replacing the **electric meter**, if damaged

### Customers:

Responsible for providing and installing the **service point of attachment**, wires after the **point of delivery**, **weatherhead**, **drip loop**, and the **meter can** housing the electric meter
