Understanding Your Billing Charges

Customer Charge

Liberty service includes a fixed monthly customer charge, no matter how much natural gas is used. The charge allows Liberty to recover a portion of its operational costs and rate of return on its investment.

Usage Charge

This charge applies to the consumption of gas. It is billed as the cubic feet of natural gas used.

Purchased Gas Adjustment (PGA)

This is the cost the company pays to purchase natural gas on the open market, plus the transportation and storage services fees. It also reflects any under- or over- collection of actual costs in the previous period. The PGA accounts for about two-thirds to three-fourths of a winter bill.

Franchise Fee

This fee is a tax levied by local municipalities that Liberty collects and passes on to those respective cities. Applicable state and local taxes are also charged.

How To Read Your Meter

Some of the hands on the dial of your meter move in a clockwise fashion, while others move counterclockwise. All move from the lowest number to the highest. To read your meter, simply write down the number where the dial is pointing. When the hand is between numbers, use the smaller number.

This meter read: 5935

The company also uses digital meters. Their readout is much like a car odometer.

Estimated Meter Reading

The company tries to read each customer's meter each month. However, sometimes it is not possible and estimations must be made. Any variation between a customer's actual usage and the estimated usage will be corrected the next time the meter is read.

Disconnection/ Reconnection of Service

Your bill is due upon receipt, and a delinquent date appears on your monthly statement.

To avoid service interruption, call immediately if you cannot pay your bill on time, if you receive a disconnection notice, or if there is any problem with your bill.

If you find you cannot pay your entire bill, please contact us for a mutually agreeable installment plan.

Although we do not routinely disconnect service without advance notice, there are times when we must for health, safety, emergency, or maintenance reasons, or when someone has tampered with our equipment.

We will turn your service back on after the cause for the disconnection has been corrected. Service will be restored the same day, if possible.

Natural Gas Safety

Natural gas is odorless and colorless. As a safety precaution, a sulfur-like odor that smells like rotten eggs is added to help identify gas leaks.

If you suspect a gas leak, never use matches or candles to look for a leak, never turn on or off any electrical switch or appliance, do not use a telephone or cell phone inside of the building, and get everyone out of the building. Use a phone away from the location and call 1-800-406-9220 or 911.

Customer Responsibility

Although the company inspects a customer's exposed gas piping and connected gas equipment, it is the customer's responsibility to maintain all gas piping located after the meter to any connected appliance and/or equipment.

Call Before You Dig

Before you plant a tree or build a fence, make sure you know where your underground utilities are located. We encourage customers to dial 811, the nationwide one-call system, or Missouri One Call at 1-800-DIG-RITE (1-800-344-7483).
