

Liberty encourages customers to use energy-saving tools to lower their usage and control their bills. Replacing incandescent bulbs with light-emitting diodes (LEDs) is an easy, smart energy solution.

**The Benefits of LEDs:**

- **Consume up to 90% less energy**
- **Last up to 25x longer than incandescent bulbs**
- **100% recyclable**

Liberty residential customers in Arkansas can receive a complimentary three-pack of LEDs simply by filling out the survey information on this postage-paid card and mailing it by **September 30, 2022**. These 9-watt LED bulbs will replace 60-watt incandescent bulbs. For more energy-saving tips, visit [libertyenergyandwater.com](http://libertyenergyandwater.com).

**Hurry! Supplies are limited!**

LEDs are available on a first-come, first-served basis. Customers who indicate they are not interested in LEDs will not receive a complimentary three-pack.
