

# Commercial and Industrial Energy Efficiency Rebates

## Liberty®

**No matter your business, your success is tied to making every dollar count. Taking steps to improve your business's energy efficiency is a proven way to reduce energy use and save money.**

Liberty is here to help with dozens of rebates designed to help commercial and industrial facilities replace aging, inefficient equipment and systems with energy-efficient technologies.

### How your business benefits

- Reduce your energy use and minimize costs
- Enjoy a fast return on your investment, as quick as two years
- Streamline operations, enhance workplace productivity, and enhance employee comfort

### Solutions that suit

Take advantage of one or both of our commercial and industrial programs — prescriptive and custom — to find the right mix of incentives to get the maximum benefit from your energy efficiency upgrades.

Call: 1-833-286-0861

### Prescriptive

Our prescriptive rebates are available for retrofit and new construction projects and cover a wide selection of proven energy efficiency technologies, including the following:

- Lighting (fixtures, lamps and controls)
- HVAC (unitary systems, chillers, and variable frequency drives)
- Food service equipment

### Custom

Our custom rebates are available for site-specific, multi-measure, and other complex projects requiring more in-depth energy efficiency upgrades not included in the prescriptive offerings. Custom projects must be able to show specific and verifiable energy savings. Liberty will determine the incentive levels on a project-by-project basis. Typical custom measures include the following:

- Energy management systems
- Compressed air systems
- Whole-building solutions
- Building tune-ups

#### *Program requirement information*

- All projects require preapproval prior to ordering, purchasing, or installing new equipment. Please check program requirements with your Liberty authorized contractor.
- Commercial and industrial electric customers may receive up to \$100,000 in rebates per project type (lighting, HVAC, food service, and custom) each program year. This cap is imposed by your federal tax ID.

Rebates effective starting January 1, 2023.

## Custom rebates

Measure	Unit	Incentive
Custom project	Per kWh	\$0.10

## Prescriptive rebates

Lighting measure	Unit	Incentive
LED high and low bay fixture	Per fixture	\$41.10
High bay fluorescent fixture (HP T8 >4 lamps)	Per fixture	\$22.50
High bay fluorescent fixture (HP T8 ≤4 lamps)	Per fixture	\$22.50
High bay fluorescent fixture w/ HE electronic ballast (T5 >4 lamps)	Per fixture	\$30.00
High bay fluorescent fixture w/ HE electronic ballast (T5 ≤4 lamps)	Per fixture	\$30.00
Low wattage T8 lamp	Per fixture	\$4.50
LED direct linear ambient fixtures ≤ 35W	Per fixture	\$15.60
LED direct linear ambient fixtures 36W-60W	Per fixture	\$39.30
LED direct linear ambient fixtures 61W-100W	Per fixture	\$51.90
LED linear replacement lamps (Type A or AB) 2 foot	Per fixture	\$3.90
LED linear replacement lamps (Type A or AB) 4 foot	Per fixture	\$4.50
LED direct linear ambient fixtures ≤ 35W (Exterior)	Per fixture	\$15.60
LED direct linear ambient fixtures 36W-60W (Exterior)	Per fixture	\$39.30
LED direct linear ambient fixtures 61W-100W (Exterior)	Per fixture	\$51.90
LED linear replacement lamps (Type A or AB) 2 foot (Exterior)	Per fixture	\$3.90
LED linear replacement lamps (Type A or AB) 4 foot (Exterior)	Per fixture	\$4.50
LED parking garage/canopy (<45W)	Per fixture	\$24.00
LED parking garage/canopy (45-75W)	Per fixture	\$74.40
LED parking garage/canopy (≥75W)	Per fixture	\$169.80
LED wall mounted area lights (<30W)	Per fixture	\$24.00
LED wall mounted area lights (30-75W)	Per fixture	\$74.40
LED wall mounted area lights (≥75W)	Per fixture	\$169.80
LED exit sign	Per fixture	\$9.75
LED flood light (≥15W)	Per fixture	\$24.00
LED recessed fixture (1x4)	Per fixture	\$22.50
LED recessed fixture (2x2)	Per fixture	\$15.90
LED recessed fixture (2x4)	Per fixture	\$22.80

Directional LED bulb (<15W)	Per bulb	\$0.50
Directional LED bulb (≥15W)	Per bulb	\$0.50
Omnidirectional LED bulb (<10W)	Per bulb	\$0.44
Omnidirectional LED bulb (≥10W)	Per bulb	\$0.44
LED refrigerator case light	Per bulb	\$3.30
Photocell occupancy sensor	Per bulb	\$16.50
Wall switch occupancy sensor	Per bulb	\$16.50
Lighting optimization - remove 4ft lamp from T8 system	Per bulb	\$3.60
Lighting optimization - remove 8ft lamp from T8 system	Per bulb	\$4.80

HVAC measure	Unit	Incentive
Air cooled chiller	Per unit	\$3,390.00
Water cooled chiller	Per unit	\$1,560.00
Room air conditioner (12 EER)	Per unit	\$20.00
CAC <65 kBtu	Per unit	\$146.00
CAC 65<135 kBtu	Per unit	\$350.00
CAC 135<240 kBtu	Per unit	\$700.00
CAC 240<760 kBtu	Per unit	\$875.00
CAC ≥760 kBtu	Per unit	\$2,275.00
Heat pump <65 kBtu	Per unit	\$350.00
Heat pump 65<135 kBtu	Per unit	\$700.00
Heat pump 135<240 kBtu	Per unit	\$875.00
Heat pump ≥240 kBtu	Per unit	\$2,275.00
Packaged terminal air conditioner	Per unit	\$30.00
Packaged terminal heat pump	Per unit	\$30.00
Guest room energy management	Per unit	\$125.00
Variable speed drive - chilled water pump	Per unit	\$500.00
Variable speed drive - hot water pump	Per unit	\$500.00
Demand controlled ventilation	Per unit	\$600.00
VFD fans and blowers	Per unit	\$814.80
Zero-loss condensate drain	Per unit	\$73.20
Compressed air nozzle	Per unit	\$12.60

Kitchen measure	Unit	Incentive
ENERGY STAR steamer	Per unit	\$750.00
ENERGY STAR dishwasher	Per unit	\$30.00
ENERGY STAR hot food holding cabinets	Per unit	\$500.00
ENERGY STAR ice maker (2018)	Per unit	\$30.00
ENERGY STAR electric convection oven	Per unit	\$400.00
ENERGY STAR electric fryer	Per unit	\$200.00
Vending machine	Per unit	\$150.00
Evaporator fan control	Per unit	\$87.30
Strip curtain for walk-in cooler or freezer	Per unit	\$64.39
Night covers for open refrigerated display cases	Per unit	\$175.00
Door heater controls (freezer or cooler)	Per unit	\$125.00
Refrigeration economizer	Per unit	\$800.00
