

Highly CONFIDENTIAL

**ATTACHMENT 8:
AFFIDAVIT OF COMPLIANCE WITH 2020
COMPLIANCE PLAN**

The Empire District Electric Company
Liberty Utilities
2020 Annual RES Compliance Report
HIGHLY CONFIDENTIAL 20 CSR 4240-2.135(4)

On April 15, 2020, The Empire District Electric Company filed a Compliance Plan outlining our plan to comply with the Renewable Energy Standard for the years of 2020-2022.

In accordance with that document, EDE stated that the company would utilize the non-solar generation from a contract with Elk River Windfarm and generation from the Ozark Beach Hydroelectric facility owned by EDE. EDE retired 364,254 vintage 2019 and 2020 RECs from the Ozark Beach facility and the Elk River Windfarm in order to meet the 2020 non-solar compliance requirements.

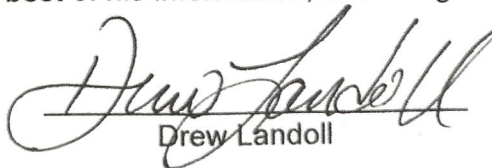

EDE retired 34,042 customer generated SRECs for compliance with the solar requirement.

The 2021 RES Compliance Plan states that EDE will continue to utilize non-solar RECs generated by the Ozark Beach facility and the Elk River Wind Farm. RECs generated by the Cloud County Windfarm are not anticipated for compliance purposes. EDE will utilize solar SRECs from customer-generated sources for compliance. EDE may also use RECs from owned wind or solar generation for compliance in the future.

The total costs for meeting the 2020 annual Missouri RES are as follows:

Resource	Cost
Ozark Beach Generation	-0-
Solar Customer Generation Rebates	\$1,145,488
NAR Administration	\$19,932
RRI Calculations, Modeling	\$7,500
Elk River PPA, Compliance Portion	**\$ **

On this date, April 15th 2021, before me appeared Drew Landoll, to me personally known, who, being by me first duly sworn, states that he is Director, Strategic Projects, of the Empire District Electric Company and acknowledges that he has read the above and foregoing document and believes that the statements therein are true and correct to the best of his information, knowledge and belief.
