1.0 INTRODUCTION

The Coal Combustion Residuals (CCR) Fugitive Dust Control Plan Annual Report for the period of **January 2018 through December 2018** has been prepared in accordance with 40 CFR 257.80(c) of the EPA CCR Rule. This report summarizes activities described in the Fugitive Dust Control Plan for The Empire District Electric Company Asbury Generating Station.

2.0 FUGITIVE DUST CONTROL MEASURES

Fugitive dust controls measures have been implemented in accordance with the Fugitive Dust Control Plan for the Asbury Generating Station for the 12-month period of this requirement.

3.0 CITIZEN COMPLAINTS

Attached is a copy of Page 80 of 88 of the Missouri Department of Natural Resources (MDNR) Monthly Air Pollution Control Program Detail Report entitled Concerns Investigated Between October 16, 2018 to December 15, 2018. It shows Concern No. 36394 which states: "Caller states there is a power plant that is emitting coal ash off their property and impacting surrounding areas. This incident has been ongoing for two weeks." The MDNR investigated the concern and contacted the Environmental Staff at Liberty Utilities. During this phone call the MDNR indicated that the complaint was unfounded.

4.0 CORRECTIVE MEASURES

No corrective measures were needed in response to citizen complaints. There were no changes or modifications to the CCR Fugitive Dust plan during the 2018 calendar year.
