

Residential Non-Standard Metering Service Acknowledgement Form

This form must be completed by the account holder on record. If you have multiple meters, a form will need to be submitted for each meter per address.

The Customer hereby requests that the existing Liberty ("Company") standard meter with wireless communications (Standard Meter) at the below listed service address be exchanged by the Company with a Standard Meter without wireless communications (Non-Standard Meter), thereby giving up any benefits created by having a Standard Meter with advanced metering infrastructure capability on their premise(s). The Customer understands and acknowledges that they will be required to pay a one-time, non-refundable, up-front Non-Standard Meter Initial Setup Charge of \$125.00 per meter (check or money order) with this signed Acknowledgement Form and will be billed a recurring monthly Non-Standard Meter Charge of \$15.00 (per meter) in addition to their applicable residential rates for service. For customers who elect a Non-Standard Meter and elect to self-read, the Company may assess a 5% interest rate on unpaid amounts resulting from failure to report usage or inaccurate reporting.

The Customer hereby agrees to release, hold harmless, and indemnify the Company in its entirety from and against any losses, liabilities, costs, expenses, suits, actions, and claims, including claims arising out of injuries to person or damage to property, caused by or in any way attributable to or related to the Customer's request for a Company Non-Standard Meter, the removal of the Company Standard Meter, and/or the subsequent installation of the Company Non-Standard Meter.

The Customer elects (initial one of the following):

☐ For a Company representative to manually read and report the Non-Standard Meter monthly usage

☐ To self-read and report the Non-Standard Meter monthly usage

The Customer agrees to the following:

- Access shall be granted to the Non-Standard Meter for monthly readings by a Company representative.
- No tampering of any kind shall take place on the Non-Standard Meter.
- If electing to self-read and report the Non-Standard Meter monthly usage, the customer will report usage to the Company on the date indicated on their bill. The customer will also grant access to the Non-Standard Meter for a Company representative to obtain an actual meter reading, per our tariff.
- When payment of the Non-Standard Meter Initial Setup Charge has been received and processed, the Company will install a Non-Standard Meter within 20 business days.

Please complete the following information and return this application along with payment of \$125.00 for the Non-Standard Meter Initial Setup Charge to:

Attn: Cashiers (Meter Opt Out)
Liberty
PO Box 127
Joplin, MO 64802
