OKLAHOMA COMMERCIAL AND INDUSTRIAL PRESCRIPTIVE REBATE PROGRAM

OC&I

APPLICATION:

The Oklahoma Commercial and Industrial Prescriptive Rebate Program (Program) is designed to encourage more effective utilization of electric energy through energy efficiency improvements through the replacement of inefficient electrical equipment with efficient electrical equipment, by providing a rebate for a portion of the costs of the improvements. The Empire District Electric Company's (Company) participation in such financial incentives is limited to the Funds allocated for that purpose and approved by the Oklahoma Corporation Commission (Commission).

DEFINITIONS:

*Administrator* – The Company will administer the program.

*Funds* – The Company has allotted funds annually to fulfill the prescriptive rebates.

*Participant* – Electric customer in rate schedules CB, GP, TEB, and PT being served by the Company in its Oklahoma electric service territory that elects to purchase and install electrical energy efficiency upgrades through the Program. Participants may apply for retrofit projects only; new construction is not eligible.

*Prescriptive Rebates* -- Certain rebates which have a set rebate amount.

AVAILABILITY:

The Program is voluntary and available on a first-come, first-served basis to any commercial or industrial facility located in Oklahoma that is receiving electric service under rate schedules CB, GP, TEB, and PT from the Company until funds for that year have been expended. One customer may submit multiple rebate applications for different measures, each of which will be evaluated on its own merits. Similar measures that are proposed in different facilities or buildings will be evaluated separately. Rebates will be limited to no more than \$2,500 per customer through the first six months of each program year. After the initial six month period, rebate limits will be increased to \$5,000. No customer, including those with multiple facilities or buildings, may receive more than \$5,000 in incentives for any program year.

TERMS & CONDITIONS:

This Program will provide rebates to Participants that replace or retrofit qualifying electric savings measures: lighting, motors, HVAC systems, chillers, and variable frequency drives. Terms of the rebate are:

1. Prescriptive Rebates for lighting, motors, cooling, chillers, and variable frequency drives are available to any commercial or industrial customer. A listing of the Prescriptive Rebates may be found on the Company's website, [www.empiredistrict.com](http://www.empiredistrict.com). A customer may apply for the prescriptive rebates by accessing the application on the Company's website.
2. Rebates will be limited to no more than \$2,500 per customer through the first six months of each program year. After the initial six month period, rebate limits will be increased to \$5,000. No customer, including those with multiple facilities or buildings, may receive more than \$5,000 in incentives for any program year.

EVALUATION:

Impacts will be based on engineering analysis formulas from Deemed Savings. All inputs that are required for the engineering analysis will be collected for all projects. ON-site inspection will be conducted for a random sample of 5% of all participants.

PROGRAM FUNDING:

To the extent that the annual funds contributed exceeds the total cost expended on the program, the amount of excess shall be "rolled over" to be utilized for the Program in the succeeding year within the three-year program period. Annual funds available for this program are as follows:

<u>Year</u>	<u>Total</u>
2010	\$31,000
2011	\$31,000
2012	\$31,000

Projects that have been approved may be scheduled in the succeeding program year but not beyond the end of the third year of the Program.
